DIVIDEND / BONUS NOTIFICATION

We will review and determine the dividend and bonus amounts to be payable to policy owners at least once per year. To determine the dividends and bonuses of the policy, we consider both past experiences and the future outlook for all the factors including, but not limited to, investment returns, claims, surrenders and expenses. As a result of recent review, the non-guaranteed benefits (such as dividends, bonus, interest rates (if applicable)) of some policies have been revised with effect from 1 August 2021 so as to reflect the Company's latest experiences and future outlook on all of these factors including the investment performance of the product's backing assets. We are pleased to advise that the policy values of your insurance policy as of this policy anniversary can be found in the Financial Statement section above.

Our Company has modified the investment strategy, the amount of derivatives used to manage our investment risk exposure and for matching between assets and liabilities may be material, and equity-like assets may extend to include private equity which is typically invested in the United States. Our Company's investment strategy is also to actively manage the investment portfolio i.e.: adjust the asset mix in response to the external market conditions. For example, the proportion of equity-like assets would be lower when interest rate level is low and would be even lower than the long-term target strategy so to protect the guaranteed liability and to minimise volatility in investment returns over time, and vice versa when interest rate is high. Please contact our AIA Financial Planner LAU YUN WAI at 27310333 or our Customer Service Hotline at (852) 2232 8888 (Hong Kong) / (853) 8988 1822 (Macau) should you have any enquiries.

紅利 ／ 分紅通知

我們將最少每年檢視及釐定將會派發予保單持有人的紅利及分紅一次。我們會考慮每個因素的過往經驗和未來展望，以釐定保單的紅利及分紅。而考慮的因素，包括但不限於投資回報、理賠、退保及支出費用。在最近的檢討中，我們就部份分紅保單的非保證利益（例如紅利、分紅、利率（如適用））作出調整，並於2021年8月1日開始生效，以反映這些因素公司的實際經驗及未來展望，當中亦包括產品相關資產投資表現。您可於上列戶口紀錄部份查閱您的保單在此保單週年日的保單價值。

本公司已修改投資策略，用以管理投資風險以及實行資產負債配對的衍生工具或會較多；而股票類別資產可能會擴展至私募基金，並通常投資於美國市場。本公司投資策略同時亦積極管理投資組合，並根據外在市場環境的變化作出調整。例如當利率低落，我們投資在股票類資產的比例亦會較低，並會低於長期投資策略的指定水平，以保障保證責任和減少投資回報的波動，反之亦然。如有查詢，請致電27310333聯絡友邦財務策劃顧問LAU YUN WAI或友邦客戶熱線(852) 2232 8888（香港）／(853) 8988 1822（澳門）。
