4.說明

(i) 於此保單預期價值一覽表內，下列定義與本保單預期價值一覽表其他說明、產品簡介及其他相關文件內的定義相同：

| 保單預期價值一覽表： | 本保單預期價值一覽表其他說明、產品簡介及其他相關文件： |
|---|---|
| 終期紅利 | 期滿紅利 |
| 現金保障收益 | 保證的現金保障收益種類：現金支付、可支取現金、保證現金、保證每月入息、保證退休獎賞、保證獎賞及/或保證每年入息<br>非保證的現金保障收益種類：非保證每月入息 |

(ii) 視乎閣下的基本計劃契約而定，保額亦可表達為主要保額/基本金額/基本保額。醫療及個人意外保障則可定義為利益金額。

(iii) 此保單預期價值一覽表假設現時沒有任何保單貸款、整個保單年期內沒有任何未來保單貸款，以及沒有行使終期紅利鎖定選項（如適用）、靈活提取選項（如適用）、保單分拆選項（如適用）及健康障礙選項（如適用）。它並且假設現時的保障額及保費金額不會被您改變、保費折扣（如適用）沒有被取回、將來不會支付任何預支保額、於整個保單年期內沒有任何未來現金提取及身故賠償於受保人身故時以一筆過形式支付。此一覽表亦不包括現金儲備金戶口內之任何金額。

(iv) 第3部份乃概括說明閣下基本計劃的主要利益，並未將第2部份所列之附加保障（如適用）計算在內，且假設閣下會全數支付應繳保費。如欲知悉更多資料，請與閣下的持牌保險中介人或本公司聯絡。

(v) 繳付保費總額包括於2017年1月1日之前根據現時保費以及產品設計而預計之保費及於2017年1月1日或之後實際應繳保費。由於繳付保費總額會因現時保單的狀況而相應調整及需要將金額調整為整數，上列繳付保費總額或會與保單中應繳保費總額稍有出入。

(vi) 第3部份退保發還金額的保證金額相等於保證現金價值、任何已支付的累積現金保障收益及利息、任何未支付的累積保證現金保障收益（不包括利息）及任何已支付的累積週年紅利及利息的總和。

(vii) 第3部份退保發還金額預計的非保證金額相等於任何預計的累積未支付的週年紅利及利息、任何預計的累積未支付的非保證的現金保障收益及利息、任何由累積已支付的保證現金保障收益及利息及累積已支付的週年紅利及利息積存之預計利息、任何終期紅利及任何加購付清保險之現金價值的總和。

(viii) 此保單的身故賠償額已計算於本保單預期價值一覽表內之身故賠償總額內。身故賠償額的保證金額會於受保人身故時保證支付。視乎詳載於保單契約內身故賠償之計算方式，顯示於本保單預期價值一覽表內之身故賠償額的非保證金額可能不會於受保人身故時支付。所以，身故賠償總額之計算方法可能並不等於身故賠償的保證金額加非保證金額。

(ix) 本保單預期價值一覽表內之「身故賠償額」包括任何加購付清保險及任何基本計劃的額外保障，但不包括任何額外意外身故賠償 。實際的身故賠償將按照保單契約內列明的特別條款(如有)支付。

(x) 第3部份預計的非保證利益乃根據本公司現時假設投資回報而計算，該利益並非保證金額。實際獲發之金額或會被不時調整而比所顯示者較高或較低。在某些情況下，非保證金額可能為零。

(xi) 如第3部份所示，閣下可將任何週年紅利存放於本公司作生息之用，惟有關息率則不獲保證。本公司於第3部份用以計算累積金額之年利率為 3.50%。實際利率將不時調整並可能比 3.50%較高或較低。閣下可選擇提取全數或部份週年紅利金額，而此舉將不會影響第2部分所示的保障額，惟上述之退保發還金額及身故賠償額將因此相應地減少。

(xii) 於審視第3部份說明的金額時，應注意未來的生活成本很可能會因通脹而上升。

(xiii) 以上顯示之數字已將金額調整為整數。

(xiv) 本公司會審核產品的實際經驗(包括但不限於投資回報、支出費用、理賠及退保情況)，並決定是否需要調整該年度所派發的紅利(如適用)。考慮調整紅利時，本公司或會平均化過往數年經驗以派發相對較穩定的紅利金額。當投資市場變得波動，調整紅利(如適用)的機會將變得較高。故此實際應派發的週年紅利(如適用)及終期紅利(如適用)或會比所列出的較高或較低。這種審核應至少每年進行一次，當經濟及其他相關因素改變時，紅利調整的次數可能會較每年調整一次更頻繁。

(xv) 此說明文件假設整個保單年期內沒有包括任何保費徵費。

警告

- 如果閣下提前終止本保單或提前停止支付保費，則可能會蒙受重大損失。
- 請注意若閣下已選購任何醫療保障計劃/附加契約，您須繳付醫療保障的保費至保障期完結。如果您打算以提取基本保單的累積價值來繳付醫療保障的保費，未來任何積存息率、紅利或分紅之改變，以及醫療保障保費的調升（因醫療通脹及整體賠償情況惡化）將有機會令基本保單的累積價值不足以繳付將來醫療保障的保費，您因而需要恢復繳付醫療保障的保費。

**Section 4 – Explanation Notes**

(i) The following definitions used in this Policy Future Value Illustration are identical to the corresponding definitions used in other sections of this illustration, the product brochure and other relevant documents.

| Policy Future Value Illustration: | Other sections of this illustration, the product brochure and other relevant documents: |
|---|---|
| Terminal Dividend | Maturity Dividend |
| Cash Payment | Types of guaranteed cash payment: Coupon Payment, Cash Endowment, Guaranteed Cash Payment, Guaranteed Monthly Income, Guaranteed Retirement Bonus, Guaranteed Bonus and/or Guaranteed Annual Income<br>Types of non-guaranteed cash payment: Non-Guaranteed Monthly Income |

(ii) Sum Assured in this Illustration of Policy Future Value Illustration can also be expressed as Principal Sum/Principal Amount/Face Amount in accordance with your Basic Plan Contract. For any medical and accident coverage, this can be defined as Benefit Amount.

(iii) This Policy Future Value Illustration assumes that there are currently no loans taken under the policy, no future loans will be taken throughout the term of the policy and that none of the Terminal Dividend Lock-in Option (if applicable), Flexi Withdrawal Option (if applicable), Policy Split Option (if applicable) and Health Impairment Option (if applicable) is exercised. It also assumes that the existing insurance coverage and premium amounts will not be changed by you, no premium discount (if applicable) is clawed back, no advance payment (if any) will be paid in the future, no future cash withdrawals will be made throughout the term of the policy, and Death Benefit is paid in lump sum at the death of insured. Any amounts in your FPDA are excluded in this Illustration.

(iv) Section 3 is only summary illustration of the major benefits of your basic plan excluding any supplementary benefits as shown in Section 2 (if applicable) and assume that all premiums are paid in full when due. You should refer to your licensed insurance intermediary or the Company for more information.

(v) Total Premiums Paid includes premiums estimated based on current premium level and product design before 1 January, 2017 and actual premiums payable on or after 1 January, 2017. The amount may differ from total of the premiums payable in the policy since the Total Premiums Paid will be adjusted based on the current status of the policy and due to rounding differences.

(vi) In Section 3, Guaranteed amount of SURRENDER VALUE equals to the sum of Guaranteed Cash Value, any paid accumulated Cash Payments with interest, any accumulated unpaid guaranteed Cash Payments (excluding interest) and any paid accumulated Annual Dividends with interest.

(vii) In Section 3, projected non-guaranteed amount of SURRENDER VALUE equals to the sum of any projected accumulated unpaid Annual Dividends with interest, any projected accumulated unpaid non-guaranteed Cash Payments with interest, any projected interest earned from paid accumulated Cash Payments with interest and paid accumulated Annual Dividends with interest, any Terminal Dividend and any cash value of Paid-Up Addition.

(viii) The Death Benefit amount of this policy is illustrated as TOTAL DEATH BENEFIT in this Policy Future Value Illustration. The guaranteed amount of DEATH BENEFIT is guaranteed to pay out when the insured passes away. Depending on the Death Benefit calculation as set out in the policy contract, the non-guaranteed amount of DEATH BENEFIT stated in this Policy Future Value Illustration may not be paid out when the insured passes away. Therefore, the TOTAL DEATH BENEFIT calculation may not be equal to the sum of guaranteed amount and non-guaranteed amount of the Death Benefit.

(ix) The Death Benefits shown in this illustration includes any Paid-Up Addition and any extra coverage of the Basic Plan, but excludes any additional Accidental Death Benefit. The actual Death Benefit payable is subject to the special terms (if any) specified in your policy contract.

(x) The projected non-guaranteed benefits included in Section 3 are based on the Company's dividend scales determined under current assumed investment return and are not guaranteed. The actual amount payable may change from time to time with the values being higher or lower than those illustrated. Under certain circumstances, the non-guaranteed benefits may be **zero**.

(xi) As illustrated in Section 3, you can leave any Annual Dividends with the Company for interest accumulation at an interest rate which is not guaranteed. The interest rate used by the Company for interest accumulation in Section 3 is 3.50% p.a. The actual interest rate may change from time to time with rate higher or lower than 3.50%. You may cash all or part of the amount of any Annual Dividends without affecting the protection amount shown in Section 2 but the Surrender Values and Death Benefits shown above will be reduced accordingly.

(xii) When reviewing the values shown in the illustrations in Section 3, please note that the cost of living in the future is likely to be higher than it is today due to inflation.

(xiii) The figures illustrated above are rounded to the nearest whole numbers.

(xiv) The Company will review the actual experience of the product (including but not limited to investment returns, expenses, claims and surrenders) and determine whether the dividends payable (if applicable) for the year need to be adjusted. When considering the dividends adjustment, we may smooth out the experience over a few years to provide a more stable dividends payout (if applicable). When the investment market becomes volatile, chances of dividends adjustment (if applicable) are higher. Accordingly, the actual Annual Dividends and Terminal Dividend paid (if applicable) may be higher or lower than those illustrated. Such review shall be performed at least annually and dividends may be adjusted more frequently than annually upon change in economic and other related factors.

(xv) This illustration assumes no levy on insurance premium is included throughout the term of the policy.

**Warning**

- Should you terminate this policy early or cease paying premiums early, you may suffer a significant loss.
- Please note that if you have purchased any medical protection insurance plans/riders, the medical protection insurance premiums are required to be paid until the end of the benefit period. If you plan to pay for the medical protection insurance premium by deducting the values accumulated in the Basic Policy, any change in the future interest rate for accumulation, dividend, or bonus, or the increase of medical protection insurance premiums due to medical cost inflation and worsening of overall claim experience, may lead to the accumulated values of the Basic Policy being insufficient to pay for the future medical protection insurance premiums, and you may then need to resume the premium payments.
