Plan: AIA Vitality Series: On Your Side Plan (18 Years Payment)

The table below illustrates the impact on Surrender Values under Pessimistic and Optimistic Scenarios. The projected benefits under the two scenarios are calculated assuming the investment returns are lower and higher than the Company's current assumed investment return respectively; while other factors, such as claims experience, expense factors and persistency factors, affecting these values are assumed to remain unchanged. The two scenarios do not represent lower and upper bounds for the actual investment return; the actual amount of non-guaranteed benefits payable may be higher or lower than those illustrated. They only illustrate, for reference purposes, the projected variation of return of the Company based on the investment policies and objectives adopted for this policy.

The table below illustrates the impact on Major Illness Benefits / Death Benefits under Pessimistic and Optimistic Scenarios. Major Illness Benefit is the projected total benefit payable for a covered major illness diagnosed or for which surgery is performed at the end of the policy year indicated. The projected benefits under the two scenarios are calculated assuming the investment returns are lower and higher than the Company's current assumed investment return respectively; while other factors, such as claims experience, expense factors and persistency factors, affecting these values are assumed to remain unchanged. The two scenarios do not represent lower and upper bounds for the actual investment return; the actual amount of non-guaranteed benefits payable may be higher or lower than those illustrated. They only illustrate, for reference purposes, the projected variation of return of the Company based on the investment policies and objectives adopted for this policy.

6. Explanation Notes

(i) This Standard Illustration for Participating Policies assumes that no loans are taken throughout the term of the policy, that no claims have been paid and that all premiums are paid in full when due.

(ii) Sections 3, 4 and 5 are only summary illustrations of the major benefits of your basic plan excluding any supplementary benefits as shown in Section 2 (if applicable) and assume that all premiums are paid in full when due. You should refer to your licensed insurance intermediary or the Company for more information or, if appropriate, a more detailed proposal.

(iii) The amount of total premium shown assumes that premiums are paid on annual basis.

(iv) The amount of Total Premium(s) Paid may differ slightly from the total of the premiums payable in the policy due to rounding differences.

(v) In Sections 3 and 4, Guaranteed amount of SURRENDER VALUE equals to Guaranteed Cash Value.

(vi) In Sections 3 and 4, projected Non-Guaranteed amount of SURRENDER VALUE equals to any Terminal Bonus.

(vii) In the case of policy surrender, the Terminal Bonus payable may be less as compared to the Terminal Bonus payable for Major Illness Benefit / Death Benefit.

(viii) The Major Illness Benefit / Death Benefit shown in this illustration includes the Coverage Booster Amount added to the amount for any major illness or death occurring while Coverage Booster benefit is in effect.

(ix) The projected non-guaranteed benefits included in Section 3 are based on the Company's Terminal Bonus scales determined under current assumed investment return and are not guaranteed. The actual amount payable may change from time to time with the values being higher or lower than those illustrated. As another example, the possible potential impact of a change in the Company's current assumed investment return on the Total Surrender Value and the Total Major Illness Benefit / Death Benefit are illustrated in Sections 4 and 5. Under certain circumstances, the non-guaranteed benefits may be **zero**.

(x) In Sections 4 and 5, benefits under Pessimistic Scenario are based on a decrease of about 2.10% p.a. whereas benefits under Optimistic Scenario are based on an increase of about 2.10% p.a. in comparing with the current assumed investment return.

(xi) When reviewing the values shown in the illustrations in Sections 3, 4 and 5, please note that the cost of living in the future is likely to be higher than it is today due to inflation.

(xii) The figures illustrated above are rounded to the nearest whole numbers.

(xiii) The Company will review the actual experience of the product (including but not limited to investment returns, expenses, claims and surrenders) and determine whether the Terminal Bonus payable for the year need to be adjusted. When considering the Terminal Bonus adjustment, we may smooth out the experience over a few years to provide a more stable Terminal Bonus payout. When the investment market becomes volatile, chances of Terminal Bonus adjustment are higher. Accordingly, the actual Terminal Bonus payable (if any) may be higher or lower than those illustrated. Such review shall be performed at least annually and Terminal Bonus may be adjusted more frequently than annually upon change in economic and other related factors.

(xiv) In case of discrepancy on the coverage amount and the premium shown in documents submitted to the Company for underwriting purposes (including but not limited to this standard illustration for participating policies and the application form) and the policy contract, the latter shall prevail and shall be final and conclusive. The total premiums paid shown above may differ from the actual premiums paid when changing payment mode after policy issuance.

(xv) This illustration assumes no levy on insurance premiums is included throughout the term of the policy.

(xvi) The values shown in this illustration does not include the AIA Vitality Power Up Coverage.

You are subject to exchange rate risks for plans denominated in currencies other than local currency. Exchange rate fluctuates from time to time. You may suffer a loss of your benefit values and the subsequent premium payments (if any) may be higher than your initial premium payment as a result of the exchange rate fluctuations. You should consider the exchange rate risks and decide whether to take such risks.

Unless otherwise expressly stated as guaranteed in this illustration, any other benefits shown to the Applicant by the sales representative or the Company at any time are subject to change, and are not guaranteed by the sales representative nor by the Company.

AIA Vitality Power Up Coverage

There are four (4) types of AIA Vitality Status, depending on the total number of points being earned and accumulated by a member for each membership year. Once you have joined AIA Vitality and purchase this AIA Vitality Series product, you are entitled to an immediate upfront 10% AIA Vitality Power Up Percentage for the first Policy Year. For each subsequent Policy Year, the AIA Vitality Power Up Percentage may increase or decrease depending on the Insured's AIA Vitality Status as shown in the below table.

AIA Vitality Status	Current Year Power Up Coverage Percentage
Bronze	Decrease by 2%
Silver	Decrease by 1%
Gold	No Adjustment
Platinum	Increase by 1%

How to calculate my AIA Vitality Power Up Coverage?

The below tables illustrate the AIA Vitality Power Up Coverage for the first seven (7) policy years based on the highest and lowest attainment of AIA Vitality Status by the Insured. Thereafter your AIA Vitality Power Up Coverage will continue to be calculated in accordance with your AIA Vitality Status achieved on each subsequent Policy Anniversary. No AIA Vitality Power Up Coverage will be offered if the Insured's AIA Vitality membership is terminated for whatever reason.

Best Scenario

- We assume the Insured achieves "Platinum" AIA Vitality Status (i.e. highest status) at the end of each subsequent Policy Year, starting from Policy Year one (1).
- The maximum attainable AIA Vitality Power Up Percentage is 15% and it can be attained starting from Policy Year six (6).

Policy Year	AIA Vitality Power Up Percentage for the previous year (%)	Adjustment to the AIA Vitality Power Up Percentage based on AIA Vitality Status (%)	AIA Vitality Power Up Percentage for the current year (%)	Initial Sum Assured Amount (A)	AIA Vitality Power Up Coverage (B)	Total Coverage Amount (A)+(B)

Worst Scenario

- We assume the Insured achieves "Bronze" AIA Vitality Status (i.e. lowest status) at the end of each subsequent Policy Year, starting from Policy Year one (1).
- No AIA Vitality Power Up Coverage will be offered starting from Policy Year six (6).

Policy Year	AIA Vitality Power Up Percentage for the previous year (%)	Adjustment to the AIA Vitality Power Up Percentage based on AIA Vitality Status (%)	AIA Vitality Power Up Percentage for the current year (%)	Initial Sum Assured Amount (A)	AIA Vitality Power Up Coverage (B)	Total Coverage Amount (A)+(B)

Important Notes:

1) The AIA Vitality Power Up Coverage is only applicable to the specific Basic Policy. The AIA Vitality Power Up Coverage is not extended to any other policies unless it is specifically stated otherwise. Please check the illustration of the other policies, and contact the Company if you have any doubt.
2) The AIA Vitality Power Up Percentage is capped at 15% and floored at 0%.
3) The Death Benefit or the Lump Sum Advance Payment for Critical Illness (as the case may be), the value of which is dependent on the Initial Sum Assured, may be increased.
4) The insured has to be an AIA Vitality member in order to enjoy the AIA Vitality Power Up Coverage. There are other prerequisite, terms and conditions which dictate the availability of the AIA Vitality Power Up Coverage. Please refer to the policy contract for details.
5) An annual membership fee will be charged for AIA Vitality and a member has to renew the AIA Vitality membership annually in order to enjoy AIA Vitality Power Up Coverage (if any) in the subsequent policy years.
6) If the AIA Vitality member is insured by more than one policy or supplementary contract under the AIA Vitality Series, the AIA Vitality Power Up Coverage or AIA Vitality Insurance Premium Discount applied, as the case may be, should be calculated independently for each policy or supplementary contract. For the avoidance of doubt, AIA Vitality Power Up Coverage and AIA Vitality Insurance Premium Discount are mutually exclusive. Please check the illustration of each policy or supplementary contract to find out which one applies.

AIA INTERNATIONAL LIMITED

"**AIA Vitality**" means the science-backed incentivised wellness programme which is administered, managed and distributed by AIA International Limited separately to the Insured in Hong Kong or Macau (as the case may be) to promote personal wellness and health styles, which has its independent terms and conditions to govern a member's eligibility, reward and participation in the programme as well as the AIA Vitality Status. For terms and conditions of AIA Vitality membership, please visit AIA Vitality website for more information.

AIA Vitality is not an insurance product that falls under the jurisdiction of the insurance regulation.

AIA International Limited shall have its sole discretion to (1) modify AIA Vitality structure, make changes, in whole or in part, with or without notice, to any aspect of AIA Vitality, including benefits, rules, regulations, policies, procedures, conditions of participation or other features and any other terms and conditions communicated in any other materials relating to AIA Vitality, even though changes may affect the points earned (or to be earned) and accumulated and the benefits entitlement; and (2) terminate, suspend, cancel, deactivate, recall or revoke AIA Vitality (in whole or in part) at any time, upon reasonable notice where it is possible and / or practical to give such notice. Any revised version of the terms and conditions shall be effective at the date of publication on the website, and available for download at AIA Vitality website. We also reserve the right to change our partners and benefits structure / incentives / discounts / cash back and eligibility conditions at any time.

Warning

- You should only apply for this product if you intend to pay the premium for the whole of the premium payment term.
- Should you terminate this policy early or cease paying premiums early, you may suffer a significant loss.
- Please note that if you have purchased any medical protection insurance plans / riders, the medical protection insurance premiums are required to be paid until the end of the benefit period. If you plan to pay for the medical protection insurance premium by deducting the values accumulated in the Basic Policy, any change in the future interest rate for accumulation, dividend, or bonus, or the increase of medical protection insurance premiums due to medical cost inflation and worsening of overall claim experience, may lead to the accumulated values of the Basic Policy being insufficient to pay for the future medical protection insurance premiums, and you may then need to resume the premium payments.

Plan: AIA Vitality Series: On Your Side Plan (18 Years Payment)

This Benefits Highlight is for your reference only. Please read other sections of this illustration thoroughly to understand your policy benefits.

AIA Vitality Series: On Your Side Plan is a participating insurance plan that provides you with life insurance, critical illness protection and the opportunity to enhance your savings. It gives you all-round cover for 58 critical illnesses (including 57 major illnesses and 1 minor illness), 44 early stage critical illnesses and stay in ICU because of health issues beyond critical illnesses, including infectious diseases and injuries, along with flexible support in case cancer, heart attack, stroke and Alzheimer's disease strike multiple times.

1. **Death Benefit:**
   If the insured, who is the person protected under the policy, passes away, we will pay the death benefit to the person whom you select in your policy as the beneficiary. The death benefit will include:

   i. Current Sum Assured; and
   ii. a one-off non-guaranteed cash amount (if any), called Terminal Bonus, provided that the policy has been in force for 5 years or more.

   Current Sum Assured means the Sum Assured left after deduction of all advance payment(s) made from the Initial Sum Assured. The Initial Sum Assured means the protection amount that you have purchased.

   We will deduct all outstanding debt under your policy before making any claim payment.

2. **Benefits for Covered Illnesses:**
   If the insured is diagnosed with any of the 58 covered critical illnesses (including 57 major illnesses and 1 minor illness), 44 early stage critical illnesses and / or meets the criteria for the ICU Protection Benefit, we will pay:

   i. the benefit amount base on Covered Illnesses Benefit Schedule; and
   ii. the corresponding non-guaranteed Terminal Bonus (if any), provided that the policy has been in force for 5 years or more.

   Under these benefits, an advance payment will be payable 1 time for each covered illness (except Carcinoma-in-situ) and each tier of ICU Protection Benefit throughout the term of policy. For Carcinoma-in-situ, the advance payment may be paid up to 2 times for different organs throughout the term of policy.

   Except the Selected Critical Illness Septuple Benefit, Continuous Cancer Income Option and Lifelong Alzherimer Annuity Benefit, the claims payments made in total for these benefits under the policy cannot exceed 100% of the Initial Sum Assured (excluding any Terminal Bonus). Any advance payment(s) made will reduce the Current Sum Assured of the basic policy. The future premium, guaranteed cash value and any Terminal Bonus will also be reduced accordingly. Once advance payments reach 100% of the Initial Sum Assured, guaranteed cash value would reduce to zero with the Current Sum Assured, and the Terminal Bonus will no longer be declared.

   We will deduct all outstanding debt under your policy before making any claim payment.

Plan: AIA Vitality Series: On Your Side Plan (18 Years Payment)

3. **Upgraded Protection for the First 10 years:**
During the first 10 years of the policy, we will provide the Coverage Booster which is an additional one-off payment equal to 35% of the Initial Sum Assured applicable to 58 critical illnesses (including 57 major illnesses and 1 minor illness), the death benefit or the 2nd tier ICU Protection Benefit. The Coverage Booster will not be reduced by any advance payment for early stage critical illness and 1st tier ICU Protection Benefit.

Subject to our underwriting decision at policy inception, we may offer you a conversion right for the Coverage Booster. Starting from the last year of the Coverage Booster effective period or the anniversary of your cover immediately following the insured's 64th birthday (whichever is earlier), you can convert the remaining unpaid amount of the Coverage Booster into a whole-life or whole-life with critical illness protection insurance plan subject to additional premium, and no further health information will be required. Upon conversion, the Coverage Booster will be surrendered and the new converted plan will be dated as of the date of such surrender.

4. **ICU Protection Benefit:**
On Your Side Plan provides 2 tiers of ICU Protection Benefit for stay in ICU because of any health issues beyond critical illnesses, including infectious diseases and injuries.

Under the 1st tier ICU Protection Benefit, you could receive an advance payment of 20% of the Initial Sum Assured if the insured has stayed in the ICU and is on invasive life support for 72 or more consecutive hours. If the stay in Intensive Care Unit takes place outside of Hong Kong and Macau, the benefit payable under 1st tier will be reduced to 10% of the Initial Sum Assured.

If a claim is eligible for both 1st tier ICU Protection Benefit, and Early Stage Critical Illness Benefit or Severe Child Disease Benefit, only Early Stage Critical Illness Benefit or Severe Child Disease Benefit is payable.

Under the 2nd tier ICU Protection Benefit, you could receive an 100% of the Initial Sum Assured, less any paid advance payment, if the insured has stayed in the ICU, is on invasive life support for 120 or more consecutive hours and undergoes a complex surgery, as defined under the Voluntary Health Insurance Scheme ("VHIS") Schedule of Surgical Procedures. If the insured undergoes a surgery which is not included in any surgical category under the Voluntary Health Insurance Scheme Schedule of Surgical Procedures, or if this Schedule of Surgical Procedures is no longer valid or is replaced, or if the categories of surgical procedures in this Schedule are renamed or otherwise changed, we will reasonably determine the applicable surgical category based on other surgical procedures with similar difficulty and complexity included in the Schedule of Surgical Procedures and / or any other publication or information from the Hong Kong Government, relevant authorities or medical associations.

If a claim is eligible for both 2nd tier ICU Protection Benefit and Critical Illness Benefit, only Critical Illness Benefit is payable except in the case of Cerebral Aneurysm Requiring Surgery, only 2nd tier ICU Protection Benefit would be payable.

Plan: AIA Vitality Series: On Your Side Plan (18 Years Payment)

5. **Selected Critical Illness Septuple Benefit:**

Once you have claimed 100% of the Initial Sum Assured, no further premium will be required. Subsequently, the Selected Critical Illness Septuple Benefit will pay up to 7 additional claims in total for cancer (including a continuation, metastasis or recurrence of a previous covered cancer or a new covered cancer), heart attack, stroke and Alzheimer's disease, each for 100% of the Initial Sum Assured.

Together with the major illness benefit, the maximum number of claims cannot exceed the following limitation for corresponding diseases:

- Cancer: 5 claims
- Heart Attack or Stroke: 2 claims in total
- Alzheimer's Disease / Irreversible Organic Degenerative Brain Disorders: 1 claim

All claims under this Benefit are subject to a survival period of 15 days from the date of diagnosis, as well as a waiting period. The waiting period will be 1 year, except where the previous and subsequent diagnoses are both for cancer, in which case the waiting period will be 3 years. If the last claim was made for an early stage critical illness, minor illness or 1st tier ICU Protection Benefit, no waiting period will be applicable.

Each subsequent heart attack must be newly diagnosed and must relate to a separate cardiac incident, with fresh diagnostic findings that meet the definition for a heart attack. Each subsequent stroke must be newly diagnosed and must relate to a separate cerebrovascular accident or incident, producing new findings of new or increased neurological functional impairment that meet the definition for a stroke. To entitle the benefit of Alzheimer's Disease / Irreversible Organic Degenerative Brain Disorders under the Selected Critical Illness Septuple Benefit, the Insured must be evidenced with a Mini Mental State Examination score of less than 10 out of 30. Please refer to the policy contract for the definition of covered illnesses.

The cover period of the Selected Critical Illness Septuple Benefit is up to age 85 of the insured. In case the insured reaches the age of 70 or above and makes any subsequent claim for prostate cancer resulting from the continuation of a previous prostate cancer for which a previous claim was made, the benefit will only be payable if the insured has received or is in the process of receiving the full course of cancer-directed surgery, radiotherapy, chemotherapy, targeted therapy or a combination of these treatments (excluding hormonal therapy) which is medically necessary during the intervening period between the diagnosis of the previous and subsequent prostate cancer.

Plan: AIA Vitality Series: On Your Side Plan (18 Years Payment)

6. **Continuous Cancer Income Option:**
Once a cancer claim is paid under the major illness benefit or Selected Critical Illness Septuple Benefit, you may select the Continuous Cancer Income Option, which gives you the flexibility to receive monthly payouts for offsetting ongoing medical costs and loss of income. After just a 1-year waiting period following a preceding cancer diagnosis if the insured is still suffering from cancer and is still receiving active treatment or the cancer is classified as terminal cancer, you can opt to claim a monthly income of 5% of the Initial Sum Assured up to 100 months or up to age 85 of the insured, whichever is earlier.

The aggregate amount of all benefits paid and payable for eligible claims for cancer under the major illness benefit, Continuous Cancer Income Option and Selected Critical Illness Septuple Benefit is up to 600% of the Initial Sum Assured.

Report(s) compiled by a registered specialist doctor confirming the below is / are required to be submitted every 6 months:

i. The existence of cancer; and

ii. The insured is undergoing Active Treatment unless a terminal cancer confirmation by a registered specialist doctor has been provided.

Once the Continuous Cancer Income Option has been paid, no Selected Critical Illness Septuple Benefit shall be payable for any cancer.

The cover period of the Continuous Cancer Income Option is up until age 85 of the insured, this benefit is subject to a survival period of 15 days.

7. **Lifelong Alzheimer Annuity Benefit:**
Once a claim due to diagnosis of the Alzheimer's disease / Irreversible organic degenerative brain disorders is paid under the major illness benefit or Selected Critical Illness Septuple Benefit, and upon a 1-year waiting period after the insured suffer from Alzheimer's disease / Irreversible organic degenerative brain disorders which is characterized by a Mini Mental State Examination score of 10 or less out of 30 on or before age 85 of the insured, an annual income of 6% of the Initial Sum Assured will be payable up to policy termination, as long as survival proof is received by us not less than 1 month but not more than 2 months prior to the benefit payment date each year.

8. **Continuous Protection:**
Once claims for covered illnesses reach 100% of the Initial Sum Assured, the subsequent premiums of the basic policy will be waived. Add-on plans (if any) attached to the basic policy will remain in force and provide cover if their respective premiums continue to be paid.

9. **Summary of Projected Total Surrender Value:**
The plan also helps you accumulate wealth.

End of Policy Year	Projected Total Surrender Value
20	522,270
30	1,425,300

Projected Total Surrender Value means the sum of the guaranteed cash value and non-guaranteed Terminal Bonus. For the Projected Total Surrender Value in other policy years and the relevant assumptions, please refer to the Standard Illustration for Participating Policies of this proposal including the Explanation Note under Section 6.

10. By putting aside money for **regular contributions for the selected period of time, you can enjoy whole life protection** while being financially flexible. The premium is not expected to increase with age. The premium of the basic policy is not guaranteed, and we reserve our right to review and adjust the premium from time to time.

11. **Waiver of Premium Rider (Basic Plan):**
    If the insured becomes Totally and Permanently Disabled due to either injury or sickness before age of 60, the future premium payable under the Basic Policy for the amount of coverage equal to the coverage of this rider shall be waived while disability continues.

    - The offer of Waiver of Premium Rider (Basic Plan) is for standard insured only and is subject to the Company's final approval.
    - Subject to the Company's prevailing rules and regulations, the aggregate amount of coverage under this rider, any Waiver of Premium Rider (Basic Plan) and any Enhanced Advance Payment and Waiver of Premium Rider (Basic Plan) covering the insured, and whether attached to the Basic Policy or otherwise, shall not exceed a maximum of US$300,000 / HK$2,250,000 per life.
    - This rider does not cover any Disability caused by self-inflicted injury.

12. This plan offers an option for a policy loan. Interest on a policy loan will be charged at a rate solely determined by us from time to time. Please note we will deduct all outstanding debt under your policy before we make any benefit payment.

Plan: AIA Vitality Series: On Your Side Plan (18 Years Payment)

Remarks:

- The benefits paid for major illnesses and 2nd tier ICU Protection Benefit will be reduced by any advance payments for minor illness, early stage critical illness and 1st tier ICU Protection Benefit. Except Selected Critical Illness Septuple Benefit, the Continuous Cancer Income Option and Lifelong Alzheimer Annuity Benefit, the advance payments made in total for benefits under this policy cannot exceed the Initial Sum Assured (excluding any Terminal Bonus). When the aggregate amount of any advance payments for benefits under the policy reaches 100% of the Initial Sum Assured, the benefits of major illness, minor illness, early stage critical illness and ICU Protection Benefit will cease to apply (except Selected Critical Illness Septuple Benefit, Continuous Cancer Income Option and Lifelong Alzheimer Annuity Benefit).
- An advance payment will be payable 1 time for each covered illness (except Carcinoma-in-situ) and each tier of ICU Protection Benefit throughout the term of policy. For Carcinoma-in-situ, the advance payment may be paid up to 2 times for different organs throughout the term of policy. Under Major Illness Benefit and Selected Critical Illness Septuple Benefit, the benefit payment will be payable in total of 5 times for cancer, 2 times in total for heart attack and stroke, 1 time for Alzheimer's Disease / Irreversible Organic Degenerative Brain Disorders. While under Selected Critical Illness Septuple Benefit, the benefit payment is payable 7 times in total.
- Under Coverage Booster, the benefits paid for a major illness and 2nd tier ICU Protection Benefit will be reduced by any advance payment for minor illness. The advance payments made in total for benefits under Coverage Booster cannot exceed the Coverage Booster Amount. When the aggregate amount of any advance payments for the benefits under Coverage Booster reaches 100% of the Coverage Booster Amount, the Coverage Booster will cease to apply.
- If the Insured stays in the Intensive Care Unit outside of Hong Kong and Macau for 72 or more consecutive hours with the use of Invasive Life Support, the advance payments equal to 10% of the Initial Sum Assured or the US$50,000 per life limit, whichever is lower; any stay in the Intensive Care Unit in mainland China must be at the designated hospital. You may go to our website (www.aia.com.hk) for retrieval of the most current designated hospital list. The list may be amended from time to time at the Company's discretion, and any change shall be deemed as effective on the date of publication on the AIA website.
- Under Selected Critical Illness Septuple Benefit and the Lifelong Alzheimer Annuity Benefit, the Insured must fulfil the definition requirement of Alzheimer's Disease / Irreversible Organic Degenerative Brain Disorders and score 10 or less out of 30 in a Mini Mental Strate Examination in order to be eligible for the relevant benefit.
- Under Continuous Cancer Income Option, the benefit payable equal to 5% of the Initial Sum Assured each month, up to 500% of the Initial Sum Assured (together with the previously claimed Major Illness Benefit and / or Selected Critical Illness Septuple Benefit for Cancer, up to 600% of the Initial Sum Assured).

i. Key Exclusions

Except for the death benefit, under this plan, we will not cover any of the following events or conditions that result from any of the following events:

- any illnesses with signs / symptoms, or surgeries caused or triggered by conditions, which first occurred before or within 90 days after the policy is issued;
- Fulminant viral hepatitis or cancer of the insured was due to AIDS or HIV infection; and
- a self-inflicted injury.

The above list is for reference only. Please refer to the policy contract of this plan for the complete list and details of exclusions.

AIA INTERNATIONAL LIMITED

Plan: AIA Vitality Series: On Your Side Plan (18 Years Payment)

ii. Additional Exclusions for ICU Protection Benefit

The stay in Intensive Care Unit must not be related to or must not arise as a direct or indirect result of:

- a cosmetic treatment performed on the insured unless it is necessitated by injury and it is performed within 90 days of the accident;
- the insured's pregnancy, surrogacy, childbirth or termination of pregnancy, birth control, infertility or human assisted reproduction, or sterilisation of either sexes;
- mental disorder, psychological or psychiatric conditions, behavioural problems or personality disorder of the insured;
- primarily for physiotherapy or for the investigation of signs and / or symptoms with diagnostic imaging, laboratory investigation or other diagnostic procedures; or
- experimental and / or unconventional medical technology / procedure / therapy performed on the insured; or novel drugs / medicines / stem cell therapy not yet approved by the government, relevant authorities and recognised medical association in the locality.

The above list is for reference only. Please refer to the policy contract of this plan for the complete list and details of exclusions.
