Subject: (Ref: A250443) 醫療保障計劃 – 組織碎化技術
Medical Products – Histotripsy

醫療技術日新月異，個別香港醫療機構最近已經引進超聲波組織碎化（Histotripsy）技術，並透過超聲波組織碎化的原理，即利用高強度超聲波，針對性破壞癌細胞以治療肝癌。

此「組織碎化」為醫治肝癌外科手術。若受保人接受「組織碎化」治療肝癌，有關治療費用將根據受保人醫療保障計劃的保單條款而獲得相關手術費保障（即此手術賠償百分比為 50%或手術複雜類別為大型手術）。

除上述的「組織碎化」外，我們於早前亦曾發出關於「質子治療」及「免疫療法」等癌症治療保障範圍的通告以補充合約條款未有詳列的項目（詳情請參閱通告 A160118 及 A150906）。

如有任何查詢，請於 iEngage/ PES 使用 Chatbot 進行查詢；澳門可親臨營運服務中心。

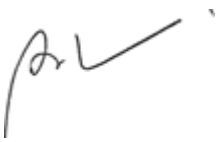
Medical Technology is keep evolving. Some Hong Kong healthcare facilities have recently introduced a ultrasonic tissue fragmentation technology which works by principle of using high-intensity ultrasound to specifically destroy cancer cells, Histotripsy, for treatment on liver cancer.

We treat Histotripsy as a surgical procedure for liver cancer. Should our insured receives Histotripsy for treating liver cancer, the relevant treatment expense will be covered by the respective surgical benefits under the medical plans according to the terms and conditions of the policy (i.e. surgical reimbursement percentage is 50% or its complexity is classified as major operation).

In addition to the above-mentioned Histotripsy, memorandum regarding coverage of “Proton Therapy” and “Immunotherapy" was also released previously to supplement the scope of coverage for cancer treatment under our medical products (please refer to the memorandum A160118 and A150906 for the details).

Should you have any queries, please enquire by using Chatbot in iEngage/ PES. For Macau, please visit Operation Service Centre for details.

Regards,



Sheila Lui
