重要事項

- 如貸款未有及時償還，貸款機構可指示我們於扣除任何保單欠款金額後，將該筆款項（包括任何退保或現金價值）直接支付予貸款機構，或遵從所有由貸款機構於轉讓保單下所行使之權利，包括但不限於對保單於冷靜期內取消保單，退保及提取保單金額之權利。換言之，保障可能會被減少，甚至乎下跌至零。

- 如受保人於保單生效期間或保單期滿前身故，而貸款尚未完全還清，貸款機構可指示我們於扣除保單內之任何欠款金額後，將身故賠償直接支付給貸款機構作還款用途。換言之，保障範圍將被減少或甚至乎下跌至零。

- 貸款機構可不時指示我們發放有關該保單的資料，包括但不限於保單之退保或現金價值。

- 除非我們已經收到了貸款機構的事先同意，我們不能支付任何金額給你，無論是現金提取，保單貸款，退保或現金價值之退款（於取消或終止保單）或退回全數或部份保費（於冷靜期內取消保單）。

- 你或不被批准於沒有貸款機構的事先同意下指定或更改你的配偶或子女(或其中任何人)為保單之受益人。

- 在轉讓保單作為抵押前，你必須閱讀及明白貸款機構所訂定有關權益轉讓的條款及細則。

- AIA沒有參與是次權益轉讓並且未有獲得任何利益。

風險披露

信貸風險:
閣下須承受友邦的信貸風險。倘若友邦的信貸評級被下調或無法按保單的承諾履行財務責任，保單的貸款機構有權重新審核信用額度及要求額外抵押品。

加按風險:
如未償還之貸款金額高於貸款機構給予閣下的貸款信用額，您可能需要提供額外抵押品。

貸款調整和收回風險:
保單的貸款機構有權隨時增加，減少或取消閣下整個或部分的貸款。若閣下未能償還貸款，保單的貸款機構有權要求我們退保整個或部分保單並使用退保總值，提取現金而將所有款項用來償還未償還的貸款和遵守與保單之權益轉讓有關的其他指示。

保單之權益轉讓風險:
在貸款機構提供保費/保單融資和其他貸款下，保單持有人的權益將會透過轉讓契約被轉讓給貸款機構。這代表所有保單支付的款項將首先給予貸款機構，而保單的任何更改及修訂亦須經過貸款機構的批準。若保單持有人去世，貸款機構可對該保單進行退保並使用退保價值償還未償還貸款。閣下請確保保單的指定受益人完全清楚這一點。

退保及身故賠償風險:
當保單被轉讓到貸款機構後，貸款機構將擁有唯一權利而可代表保單持有人行使保單上的權利，包括但不限於保單的接收任何紅利，退保該保單並收取退保總值，申請保單貸款和行使任何既有現金價值條款選擇。

利率風險:
當保單的貸款利率有所調整時，閣下的利息成本可能增加而導至保單總值高於貸款餘額。可影響保單的貸款利率包括但不限於(1)貸款機構政策和酌情權；(2)保單的貸款貨幣的市場供應及需求(例如香港銀行同業拆息– HIBOR）。

回報率風險:
當保單的貸款利率有所調整時，閣下的利息成本可能增加而減少保單的回報率。在最壞的情況下，貸款利率有可能高於在人壽保險可收到的回報而閣下可能蒙受重大損失。閣下應注意到利息成本高於保單回報時保單總值不足以應付閣下對貸款機構的貸款債務。

匯率風險:
當閣下選擇一個與保單貨幣不同的貸款貨幣時匯率風險會因而產生。例如，在保費融資的情況下，閣下須分別地以外匯交易的方式向貸款機構轉換其保費貸款(例如: 港元貸款)至其保單貨幣(例如: 美元)以作保費結算之用。
同樣地，任何由保單得到的收入(例如:美元)須在用作償還貸款前被轉換至貸款貨幣(例如:港元)。匯率的波動可影響償還款項，如有短缺閣下可能被貸款機構要求額外注資。

營業員必須提醒客戶需留意權益轉讓重要事項及披露保費融資相關風險。

Important Notes

- If your loan repayment is in default, the lending institution may instruct us to pay directly to it all such moneys as are payable under your policy (including any surrender or cash value), after deducting any amount that you may owe us under the policy, or comply with all of its directions insofar as the lending institution is exercising its rights of the policy under the Assignment, including but not limited to the right to cancel the policy within the cooling-off period of the policy, surrender the policy and make cash withdrawals under the policy. As a result, the protection coverage will be reduced or even may become zero.
- If, at the time of the death of the insured under the policy or the maturity of the policy, the loan is not wholly repaid, the lending institution may instruct us to pay the death benefit, after deducting any amount that you may owe us under the policy, directly to it for the repayment of any outstanding loan. As a result, the protection coverage will be reduced or even may become zero.
- The lending institution may instruct us to release such information relating to the policy as it may from time to time request, including but not limited to the surrender or cash value of the policy.
- Unless we have received the prior consent of the lending institution, we cannot pay to you any money, whether by way of cash withdrawal, policy loan, refund of any surrender or cash value (upon cancellation or termination of the policy) or refund of all or part of any premium (upon cancellation of the Policy within the cooling-off period of the policy).
- You may not be permitted to designate your spouse or children (or any of them) as beneficiary(ies) under the policy, or change the beneficiary(ies) under the policy to your spouse or children (or any of them) without the prior consent of the lending institution.
- You should read and understand the terms and conditions of Assignment set out by the lending institution before using your policy as security.
- AIA does not participate nor has any interest in the Assignment.

Risk Disclosure

Credit Risk:
You are subject to the credit risk of AIA. In the event of any adverse change in credit rating of or default of AIA, the lending institution may review and adjust the credit limit and to call for additional collateral if required.

Collateral top-up risk:
Collateral top-up may be required if the outstanding loan amount is higher than the credit limit granted by the lending institution.

Loan adjust and recall risk:
The lending institution may increase, reduce or cancel the whole or any part of the loan facility at any time. If you are unable to repay the loan facility, the lending institution may exercise its rights of the policy under the Assignment including but not limited to instruct us to fully/partially surrender the policy, make cash withdrawals and pay all such moneys directly to it and comply with any other instructions pursuant to the Assignment.

Insurance policy assignment risk:
With Premium Financing loan or other credit facilities advanced by a lending institution, the rights of the policyholder under the insurance policy will be assigned to the lending institution. This means all proceeds payable under the policy are to be paid to the lending institution first, and any changes or amendment to the policy are subject to the lending institution's approval. In case the policyholder passes away, the lending institution may surrender the policy and use the surrender value to repay the outstanding loan. You shall ensure the beneficiary(ies) is (are) fully aware of this.

Surrender risk and death benefit risk:
Once the policy is assigned to the lending institution, the lending institution shall have the sole right to exercise the rights under the policy on behalf of the policyholder, including but not limited to receive any dividends payable under the policy, surrender the policy and receive any surrender value, apply for policy loan and exercise any non-forfeiture options.

Interest rate risk :
When the loan interest rate or crediting interest rate of the policy changes, it may result in higher costs of interest payments and the value of the policy will be lower than the loan balance. Interest rates applicable to the loan are subject to changes according to (including but not limited to): (1) lending institution's policy and discretion and (2) prevailing market conditions on the demand and supply on the currency the loan is denominated in (e.g. Hong Kong Interbank Offered Rate).

Rate of return risk:
Changes in interest rates applicable to the loan (i.e. increase) may increase the cost of serving the loan and therefore reduce the overall rate of return of the policy under this financing arrangement. In the worst case, the financing interest rate may be higher than the returns received from the policy and you may be subject to significant financial loss. You should be aware of the adverse financial implications in the event the rate of return generated from the policy is insufficient to allow the value of the policy to meet your financial obligations to the lending institution.

Exchange rate risk:
Exchange rate exposure arises when you choose a loan currency different to the policy currency. For instance, in case of premium financing, you are required to convert the premium loans (e.g. HKD loans) into the policy currency (e.g. USD) in the form of a separate foreign exchange transaction with the lending institution for premium settlement. Similarly, any proceeds received under the policy are required to be converted into the loan currency before being used for the loan repayment. The fluctuation in exchange rate may have impact on the amount of loan repayment and you may be required to top it up in case of shortfall.
