A.公佈之週年紅利／復歸紅利及終期紅利／終期分紅

正如上述提及，我們將最少每年檢視及釐定將會派發予保單持有人的紅利及分紅一次。我們會考慮各種因素，並按過往經驗和未來展望釐定保單的紅利及分紅，以確保其能反映我們對每個因素考慮後的最新經驗及未來展望。而考慮的因素，包括但不限於投資回報、理賠、退保及支出費用。

本次紅利及分紅檢討反映了過往的投資表現，以及較好的未來投資展望。除了較佳的債券收益環境，增長型資產的投資表現亦較 2022 和 2023 年過去兩次檢討週期的投資表現為佳。多元化增長型資產組合的表現在這次檢討中，私募資產類別和亞太區股票市場的投資只有適度回報，而歐美股票市場表現則較為理想。雖然這次增長型資產的回報表現有所提升，但過往三年的累計表現仍然未如理想，而過往兩年的檢討亦並未有調整多數產品的紅利/分紅。透過緩和機制，我們會把所得的利潤及虧損攤分至一段時間，而達至相對穩定的紅利及分紅派發。對於各個產品，上述因素及緩和機制的影響可能不盡相同。

有鑑於此，大部份產品公佈之週年紅利及終期紅利／終期分紅比上次紅利／分紅檢討時預期之相應金額及預期總現金價值將會維持不變，亦有部份產品公佈之週年紅利及終期紅利／終期分紅將會上調或下調。所有產品公佈之復歸紅利將會維持不變。

Memo

According to regulatory requirement, we will review and determine the dividend and bonus amounts to be payable to policy owners at least once per year. We aim to maintain the delivery of stable dividend and bonus payments in the long-term, so as to provide our customers sustainable long-term returns to achieve the targeted long-term investment results. In addition, we also continue to actively manage the investment portfolio to effectively respond to the external market conditions.

After the Dividend / Bonus Annual Review 2024, the key points are as follows:

- The declared / projected Annual Dividend / Reversionary Bonus and Terminal Dividend / Terminal Bonus and the projected Total Cash Value of most of the products will be **unchanged** when compared to the corresponding amounts from last dividend / bonus review
- The declared / projected Annual Dividend and Terminal Dividend / Terminal Bonus and / or the projected Total Cash Value of some Savings products (e.g. Global Power Multi-Currency series and Bonus Power Vantage) will be **increased** when compared to the corresponding amounts from last dividend / bonus review
    - The declared non-guaranteed benefit(s) will be increased with effect from the policy anniversary date on or after 1 August 2024 for relevant products
    - For Global Power Multi-Currency Plan 3 (Applicable to USD and HKD policies only), Bonus Power Vantage and Serene Life series (Serene Life and Serene Life (Annual Dividends)) products, regardless of application date before, on or after 1 August 2024, all new and existing customers will enjoy the increased projected non-guaranteed benefit(s)
- The declared / projected Annual Dividend and Terminal Dividend / Terminal Bonus and the projected Total Cash Value of some of the products will be **decreased**, with a relatively small impact on total policy values, when compared to the corresponding amounts from last dividend / bonus review with effect from the policy anniversary date on or after 1 August 2024

For the details regarding the affected product list and their respective cutoff arrangements, please refer to Appendix 1.

A. Declared Annual Dividend / Reversionary Bonus and Terminal Dividend / Terminal Bonus

As mentioned above, AIA will review and determine the dividends and bonuses amounts to be payable to policy owners at least once a year. To determine the dividends and bonuses of the policy, we consider both past experiences and future outlook for all the factors including but not limited to investment returns, claims, surrenders and expenses.

This review reflected the past investment performance and the better future investment outlook. Apart from the favorable bond yield environment, there was a positive investment performance on growth assets which has improved as compared to their performance in the past two review cycles in 2022 and 2023. In this review, the performance of the diversified growth assets portfolio reflected a modest return in the private assets investments and Asia-Pacific equity markets, and relatively favorable returns in the United States and European equity markets. Although the growth assets performance improved in this review, it is not good enough on cumulative basis over the 3-year period as we did not adjust the dividends/bonuses for most products in the last 2 reviews. Smoothing mechanism will spread out the gains and losses over a period of time, in order to deliver relatively stable dividend/bonus payments over time. The effect of the aforementioned factors and the smoothing mechanism may be different across products.

Hence, the declared Annual Dividend and Terminal Dividend / Terminal Bonus of majority of the products would remain unchanged, while that of some products would be increased or decreased when compared to the corresponding amounts from last dividend / bonus review. The declared Reversionary Bonus of all products would remain unchanged.

常見問題 Frequently Asked Questions

有關 2024 紅利 / 分紅週年檢討之問題 Questions regarding 2024 Dividend / Bonus Review	
1.	為什麼不同產品的紅利及分紅調整可能不一樣？ Why might the dividend/bonus adjustments be different across products?
	紅利及分紅檢討對不同產品的影響不盡相同。例如，較新推出的產品擁有更多的未來保費收入，他們受到來自增長型資產過往表現的影響相對較小，而受投資表現的未來展望的影響相對較大；而對於推出已有一段時間的產品，緩和機制的影響也不盡相同。因此，部分產品的紅利及分紅可以維持不變，而另一部分產品則需要作出調整。 The impact of the dividend/bonus review can be different across products, for example, a newer product with more future premiums are subject to less impact from growth assets' performance and higher impact from investment outlook. As such, the dividend/bonus of some products can remain unchanged, whereas, some products may require adjustments.
2.	對於某些擁有相對較高退保保證現金價值或危疾保障金額的產品，為什麼其紅利及分紅在是次的檢討中有所下調？（例如「簡愛·延續」保障計劃 2、「易達終身保」及某些危疾產品） Why are the dividends/bonuses of some products with relatively higher guaranteed surrender values or critical illness benefits reduced in this year review? (e.g. Simply Love Encore 2, Executive Life, some Critical Illness Products)
	一般而言，不論產品種類或保證金額的高低，紅利或分紅（尤其是終期紅利和終期分紅）均受其相關資產的過往投資表現及未來投資展望影響，其中包括增長型資產。值得注意的是，是次紅利及分紅的下調對這些產品的總現金價值、總身故賠償額或總危疾保障金額的影響相對較小，反映了這些產品是通過較高比例的保證價值來提供相對穩定的總保單價值。 In general, regardless of the level of guaranteed benefit or type of products, the non-guaranteed benefits (particularly terminal dividend and terminal bonus) is affected by the underlying investment performance and future investment outlook of corresponding backing assets, including growth assets. The dividend/bonus of these products would be affected by the underlying growth assets performance and investment outlook. It is worth noting that, the impact on total cash value, total death benefit or total critical illness benefits of these products are relatively small after the decrease of the dividend/bonus, reflecting that these products offer relatively stable total policy values through higher portion of guaranteed benefits.

3.	在同一個產品系列中，為什麼當中某些產品的紅利及分紅會有所調整而並非整個系列中的全部產品？（例如「簡愛·延續」保障計劃系列產品中只有「簡愛·延續」保障計劃 2 的紅利有所調整） Within a product series, there may be some products subject to dividend/bonus adjustments but not the rest of the products, what is the reason behind this? (e.g. only Simply Love Encore 2 is adjusted among the Simply Love Encore series)
	在紅利及分紅的檢討中，不同因素對於各個產品產生的影響不盡相同。例如，增長型資產的投資表現的影響會根據繳交保費的時間有所分別。由於增長型資產的投資表現從 2021 年 3 月份至今未如理想，如果某些產品在這之前已繳交大量整付保費，它們受到未如理想的投資表現的影響較大；而相反如果某些產品在此以後才繳交的大部分保費，他們受到的負面影響則較小。緩和機制的運作於多年前繕發的產品也不盡相同，因此某些產品可以維持現有紅利及分紅不變，但另一些產品則要進行調整。 In the dividend/bonus review, the impact of various factors can be different across products. For example, the impact of growth assets performance may vary depending on when the premium was received. As such, there can be negative impact for products with significant single premium before the unfavorable growth asset performance since March 2021, while the negative impact can be smaller for products collecting a significant portion of the premium afterwards. For products issued years ago, the effect of the smoothing mechanism can also be different, resulting in some products' dividend/bonus remain unchanged while some products require adjustments to the dividend/bonus.
4.	2024 紅利及分紅週年檢討中反映了什麼的投資因素？ What investment factors have been reflected in dividend/bonus annual review 2024?
	2024 年紅利及分紅檢討已反映了由 2023 年 4 月至 2024 年 3 月期間的投資表現，以及較好的未來投資展望。除了較佳的債券收益環境，增長型資產的投資表現亦較 2022 和 2023 年過去兩次檢討週期內未如理想的投資表現為佳。多元化增長型資產組合的表現在這次檢討中，私募資產類別（在短年期利率較高的環境影響下導致資本成本增加和交易活動下降）和亞太區股票市場的投資只有適度回報，而歐美股票市場表現則相對較為強勁。雖然增長型資產這次的回報表現有所提升，但過往三年的累計表現仍然未如理想，而過往兩年的檢討亦並未有調整多數產品的紅利/分紅。 The dividend/bonus annual review 2024 has reflected the investment performance from April 2023 to March 2024 and a better future investment outlook. Apart from the favorable bond yield environment, there was a positive investment performance on growth assets which has improved as compared to their unfavorable performance in the past two review cycles in 2022 and 2023. In this review, the performance of the diversified growth assets portfolio reflected a modest return in the private assets investments (with the higher short-end

	我們的投資策略旨在於不同的經濟周期提供可持續的長期回報。 為了實現可持續的長期回報，我們增長型資產的投資策略專注於分散風險，我們會投資於不同的資產類別、投資工具（例如上市股票、股票互惠基金、房地產、房地產基金、私募股權基金及私募信貸基金）和地域（例如美國、亞太及歐洲地區）。這種多元化投資配置能夠避免於單一國家、地區或行業的風險過度集中。 憑藉豐富的專業投資經驗和友邦在該地區的規模，使我們在各種資產類別都能夠於有利條件下與國際頂級的資產管理人合作。我們力求夥拍最優秀的資產管理人，並定期檢視他們在各資產類別的表現，同時保持多樣化的資產管理人組合。 對於私募資產類別（例如房地產基金、私募股權基金及私募信貸基金），實際投資回報通常會隨著其基礎投資周期的推進而提升，例如典型投資周期會在五至十年間達至收穫階段。

	Our investment strategy aims to generate sustainable long-term returns over different economic cycles. To deliver long-term sustainable returns, our investment strategy for growth assets focuses on ensuring sufficient diversification across asset classes and instruments (e.g. listed equities, equity mutual funds, physical real estate, real estate funds, private equity funds, and private credit funds) as well as across geographics (e.g. United States, Asia-Pacific and Europe). This diversification approach avoids the growth assets from being exposed to excessive risk from individual countries, regions, or sectors. Leveraged on our experienced investment expertise and our significant scale in the region, it enables us to get access to internationally top tier external asset managers under favorable conditions on each of the asset classes. We strive to have the best possible portfolio managers and we review the portfolio managers' performance regularly for each of the asset classes while maintaining diversification across portfolio managers. For private asset classes (e.g. real estate funds, private equity funds, and private credit funds), the actual investment returns will generally improve throughout the underlying investment cycle, e.g. reaching the harvesting stage of a typical investment cycle of 5 - 10 years.
7.	為什麼紅利及分紅的調整對於新生意和現有保單會有不同? Why the dividend/bonus adjustment can be different for new business and inforce policies?
	新生意及現有保單均反映了未來投資展望，然而過往投資表現僅反映在現有保單而非新生意，這導致了某些新生意的紅利及分紅預期價值可以提升，然而同時某些現有保單的紅利及分紅亦有所調整。 The future investment outlook is reflected in both new business and inforce policies, while the past investment performance is only reflected in inforce policies but not new business. 10.	在不同的產品中，增長型資產的投資比重與紅利及分紅調整（如有）有何關聯？ How does the dividend/bonus adjustment (if any) relate to the portion of growth assets investment across products?
	一般而言，增長型資產的投資比重會反映該產品的保證金額水平，例如有較高保證金額的儲蓄或者危疾產品的增長型資產比重可能會較少，這也會反映在其總保證金額和非保證金額的比例分配上。 同時，終期紅利和終期分紅主要依靠增長型資產所支持，不論產品在增長型資產的投資比重較多或較少，他們的終期紅利和終期分紅都會受增長型資產的過往投資表現及未來展望所影響。此外，由於不同因素對產品的影響不一樣，各產品的紅利及分紅的調整（如有）亦會不同，詳情請參考問題 9 的回答。 In general, the portion of growth assets of the products reflects the level of guaranteed benefits. For example, a product with a higher guaranteed savings component or higher critical illness protection may take a lower portion of growth assets. Meanwhile, terminal dividend/terminal bonus are mainly supported by growth assets. The terminal dividend/terminal bonus of products with higher or lower portion of growth assets are both subject to the growth assets' historical performance and future outlook, while the dividend/bonus adjustment (if any) may be different due to the factors mentioned in Question 9.

	Similar to last few years, a committee has been set up to provide independent advice on the determination of the dividend and bonus amounts to the Board of the Company. The committee is comprised of members from different control functions or departments within the organization both at AIA Group level as well as Hong Kong local level, such as office of the Chief Executive of the Company, legal, compliance, finance, investment and risk management. Each member of the committee will endeavour to exercise due care, diligence and skill in the performance of his or her duties as a member. The committee will utilize the knowledge, experience, and perspectives of each individual member to assist the Board in the discharge of its duty to make independent decisions and to manage the risk of conflict of interests, in order to ensure fair treatment between policy owners and shareholders, and among different groups of policy owners. The actual dividends and bonuses, which are recommended by the Appointed Actuary, will be decided upon the deliberation of the committee and finally approved by the Board of Directors of the Company, including one or more independent Non-Executive Directors. In the event of a poor experience from the participating business which results in a reduction in dividend/bonus to policy owners, AIA Hong Kong and Macau will also have a smaller profit generated from the participating business. Therefore, the interest of policy owners and shareholders are aligned. 以下列出 40 歲及 0 歲之保單預期總現金價值比率 (即預期退保發還金額總額比率) 在 2024 年度紅利 / 分紅率公佈前後之變化作為舉例。下列比率著眼於兩段時間之間的預期總現金價值 (即預期退保發還金額) 之改變，並非反映本年度公佈之紅利 / 分紅之改變。

以下預期總現金價值比率是根據 **40 歲男士**之保單而計算

A summary of the ratio of projected Total Cash Value (i.e. ratio of projected Total Surrender Value) of different products before and after the 2024 dividend / bonus declaration for age 40 and age 0 as examples. These ratios focus on the change of projected Total Cash Values (i.e. projected Total Surrender Values) between the two periods, and does not reflect the change of this year's declared dividend / bonus.

The ratios are calculated based on a sample of **a male at age 40**

Remarks:

1. The non-Critical Illness products that are not listed above have no change in projected dividend / bonus rates / Dividend & Coupon / Endowment accumulation interest rate compared to last year.
2. The above projected Total Cash Values are only shown for the in-force policies in respective years and only serve for reference purposes. Please refer to Policy Future Value Illustration for more details of the projected values after the adjustment.
3. Projected Total Cash Value includes projected guaranteed cash value, projected accumulated guaranteed cash payments and interest, projected non-guaranteed accumulated Annual Dividends and interest/non-guaranteed Reversionary Bonus and projected non-guaranteed Terminal Dividend/non-guaranteed Terminal Bonus. The projections assume that projected guaranteed cash payments and Annual Dividends are left with the Company for interest accumulation at the accumulation interest rate with effective from 1 August 2024. It is also assumed that the policy has no loans and cash withdrawals taken and has no premium offset. The above years refer to the end of policy years.

紅利 / 分紅調整訊息 Dividend / Bonus revision message

DIVIDEND / BONUS NOTIFICATION	紅利 / 分紅通知
We will review and determine the dividend and bonus amounts to be payable to policy owners at least once per year. To determine the dividends and bonuses of the policy, we consider both past experiences and the future outlook for all the factors including, but not limited to, investment returns, claims, surrenders and expenses. As a result of our recent review, the non-guaranteed benefits (such as dividends, bonus, interest rates (if applicable)) of some policies have been revised with effect from 1 August 2024 so as to reflect our Company's latest experiences and future outlook on all of these factors including the investment performance of the product's backing assets. You may find the latest policy values of your insurance policy as of this policy anniversary in the Financial Statement section above and the revised non-guaranteed benefits of your insurance policy in the Policy Future Value Illustration. Our company has refined the description of Dividend and Bonus Philosophy, and Investment Philosophy, Objective and Strategy, which are effective from 1 August 2024. Please visit our website for the latest version at: https://www.aia.com.hk/en/our-products/further-product-information/participating-products/dividend-philosophy.html Please contact our AIA Financial Planner FUNG MER AEDV at 33333333 or our Customer Service Hotline at (852) 2232 8888 (Hong Kong) / (853) 8988 1822 (Macau) should you have any enquiries.	我們將最少每年檢視及釐定將會派發予保單持有人的紅利及分紅一次。我們會考慮每個因素的過往經驗和未來展望，以釐定保單的紅利及分紅。而考慮的因素，包括但不限於投資回報、理賠、退保及支出費用。在我們最近的檢討中，我們就部份分紅保單的非保證利益（例如紅利、分紅、利率(如適用)）作出調整，並於2024年8月1日開始生效，以反映本公司對這些因素的實際經驗及未來展望，這些因素當中亦包括產品相關資產投資表現。您可於上列戶口紀錄部份查閱您的保單在此保單週年日最新的保單價值，及於保單預期價值一覽表內查閱已調整的非保證利益。 我們已完善本公司的紅利理念以及投資理念、目標及策略之敘述，並於2024年8月1日開始生效。請瀏覽本公司網頁查閱最新的版本：https://www.aia.com.hk/zh-hk/our-products/further-product-information/participating-products/dividend-philosophy.html 如有查詢，請致電33333333聯絡友邦財務策劃顧問FUNG MER AEDV或友邦客戶熱線(852) 2232 8888（香港）／(853) 8988 1822（澳門）。

紅利 / 分紅通知

我們將最少每年檢視及釐定將會派發予保單持有人的紅利及分紅一次。我們會考慮每個因素的過往經驗和未來展望，以釐定保單的紅利及分紅。而考慮的因素，包括但不限於投資回報、理賠、退保及支出費用。在我們最近的檢討中，我們就部份分紅保單的非保證利益 (例如紅利、分紅、利率(如適用))作出調整，並於 2024 年 8 月 1 日開始生效，以反映本公司對這些因素的實際經驗及未來展望，這些因素當中亦包括產品相關資產投資表現。您可於上列戶口紀錄部份查閱您的保單在此保單週年日最新的保單價值，及於保單預期價值一覽表內查閱已調整的非保證利益。

我們已完善本公司的紅利理念以及投資理念、目標及策略之敘述，並於 2024 年 8 月 1 日開始生效。請瀏覽本公司網頁查閱最新的版本：https://www.aia.com.hk/zh-hk/our-products/further-product-information/participating-products/dividend-philosophy.html

Dividend / Bonus Notification

We will review and determine the dividend and bonus amounts to be payable to policy owners at least once per year. To determine the dividends and bonuses of the policy, we consider both past experiences and the future outlook for all the factors including, but not limited to, investment returns, claims, surrenders and expenses. As a result of our recent review, the non-guaranteed benefits (such as dividends, bonus, interest rates (if applicable)) of some policies have been revised with effect from 1 August 2024 so as to reflect our Company's latest experiences and future outlook on all of these factors including the investment performance of the product's backing assets. You may find the latest policy values of your insurance policy as of this policy anniversary in the Financial Statement section above and the revised non-guaranteed benefits of your insurance policy in the Policy Future Value Illustration.
