What Sets Us Apart

We care more and work harder to deliver an unsurpassed quality experience.

We are a people with inherent personal drive and unyielding persistence. And we will never stop in our pursuit to make a meaningful and worthy impact in the communities in which we live and serve.

Integrity is woven through our character. We are listeners and doers who put the team first, always striving for excellence through serving others. Our relationships with the people for whom we care, and whose goals we help accomplish, are our most lasting legacies.

The result: we deliver a quality experience to our customers every single time. Regardless of delivery model, we are in the people business; we are in service. And when it comes to making a difference in people's lives, good is not good enough. We drive exceptional results because we cherish the impact we make. We create opportunity that enables people to realize their dreams.

What We Believe

The foundation of our collective success is rooted in our unwavering commitment to four shared core values.

We believe in the importance of character. We attract and retain people who commit to high standards and who have the utmost integrity.

We pride ourselves on working hard as a team to achieve positive results. Our people demonstrate a relentless competitive spirit that drives us to be the best in all we do.

We build deep, inclusive relationships that foster trust and enable us to unlock peoples' maximum potential. We value differences and believe they make us a stronger company.

We believe in serving others. We approach every day with an uncompromising spirit of integrity and purpose. We strive to be the best at all we do, prioritizing the interests of others above of own. We also use honest and direct feedback to help improve our partnerships. And we expect our people to always do the right thing, prioritizing the greater good above self-centered interests.

我们的与众不同

我们更注重关怀，致力于提供无以伦比的高品质体验。

我们是一群拥有内在动力、不屈不挠的人，我们将永不停歇地去追求为我们所生活和服务的社区带来有价值、有意义的影响。

我们以品格铸就诚信。我们是把团队放在首位的倾听者和实干家，始终努力通过服务他人来实现卓越。那些我们关怀的、在我们帮助下实现了目标的客户，与其保持深厚关系是我们最恒久的传承。

因此，我们每一次都为客户提供高品质的体验。无论何种交付模式，我们都牢记自己从事着关于人的事业，秉持服务精神。而一份事业如果会改变人们的生活，那么做得多周到细致都不为过。我们珍视自己的影响力，所以尽力推动更多卓越的结果。我们为逐梦者创造机遇，帮助他们实现梦想。

我们的信仰

迄今为止我们的成功是基于对四大核心价值观不曾动摇的承诺。

我们坚信品格的重要性。我们吸纳和保留那些追求高标准并极为正直的人。

我们的团队为了成功而努力拼搏，并为此感到自豪。我们秉持强烈的竞争意识，全力以赴在各方面做到最好。

我们建立深厚的关系，培养彼此的信任并鼓励大家最大限度地发挥潜能。我们重视差异并相信它可以使我们变得更加强大。

我们秉持服务他人的信念。每一天我们都带着毫不妥协的诚信和目标坚定前进。我们努力做到最好，考虑自身之前优先考虑他人利益。我们还通过诚实、直接的反馈来帮助促进彼此的关系。我们期待我们的员工始终做正确的事，为更大的利益着想，而非以个人为中心。

Why choose AETL

AN OPPORTUNITY TO EXPLORE, EXPERIENCE, AND APPLY EFFECTIVE INSTRUCTIONAL PRACTICES

We help you how to Improve your Teaching

- Applying theory and transferring research-based practices in a variety of contexts.
- Adopting student-centered inquiry and problem-solving approaches to a variety of curricular frameworks, including the Chinese National Curriculum.
- Applying evidence-based decision making to better meet the needs of all learners.
- Equipping learners with transferable learning skills across subjects.

How we deliver AETL

BUILD A COMMON UNDERSTANDING OF TEACHING AND LEARNING

- **Suitable for Everyone**
  Regardless of what subject you teach, how long you have been teaching, or what role you have in the school, you will find connections and relevance through the AETL courses.
- **Interactive Teaching and Learning**
  You will have opportunities to join flexible learning groups to dialogue, discuss, and reflect with others to learn and share different perspectives from their learning.
- **Professional Guidance**
  AETL is facilitated by recognized area experts, international educators, consultants, and classroom researchers.

What we deliver

CORE COURSES WITH RESEARCH-BASED, HANDS-ON PRACTICE, PROFESSIONAL DEVELOPMENT

Each core course focuses on a particular area of professional development and expertise in teaching and learning. While each course operates independently, there is a progressive connection and sequence for the content in the different levels.

Creating an Engaged Culture of Learning

CECL examines various ways to create an effective learning culture in which learners develop research-based habits for success while actively acquiring the learning content and engaging in the learning process.

Social-Emotional Learning & Wellbeing

SELW explores ways to nurture and support learners' personal growth and their academic development. SELW explores approaches to deepening learners' self-awareness while strengthening empathy and respect toward others.

Assessment that Facilitates Teaching and Learning

AFTL focuses on developing a deliberate feedback analysis approach that aligns curriculum, instruction, and assessment so that planning is informed by evidence and teaching and learning continuously improve.

Data Analysis to Guide Learning

DAGL develops concepts and skills related to data literacy so that teachers can effectively interpret and apply qualitative and quantitative data to guide teaching and learning.

AETL Learning Principle

Learning Ownership

We can all learn how to learn. We need to support learners in becoming proficient, self-directed learners.

Learning Language

To make learning happen effectively and collectively we need to find common meaning in our work. This requires a common learning language that describes what learning is and how we do it. Everyone, regardless of their "discipline", is a language teacher with a shared responsibility for language development so that all learners have access to learning.

Learning Contexts

All genuine learning involves transfer from previous learning. If there's no transfer, effectively there's no learning.

Nature of Learning

Individuals have different starting points and different interests. They will follow different pathways and will learn at varying paces. Purposeful collaboration as well as substantive conversation will lead to deeper understanding.
